

# KITCHENER WINE CABINETS

MORE THAN PREMIUM WINE STORAGE

Kitchener and its associate family companies have been making wine cabinets, fridges and other compressor products in Australia since 1946. All units come with the guarantee of quality associated with Kitchener Wine Cabinets, a company making and selling wine cabinets in Australia from its Melbourne factory since 1998.

With all Kitchener Wine Cabinets, the model number reflects the bottle capacity, and the bottle capacity is guaranteed. No fibs.

Kitchener also distributes EuroCave wine cabinets in Victoria, for the top of the line wine storage units.

## CT Series

The CT Series are all glass door units with a single temperature zone. All models (except the CT204) can be supplied with a kit allowing it to be “built-in”. The CT204 and CT142 have shelving and stacking configurations that are more suitable for bulk storage, whilst the CT100 and CT36 have all single row sliding shelves for easy access.

### Features at a glance.

- Reversible Glass door (lockable)
- Single Temperature zone (range 6-18 degrees Celsius)
- Automatic humidity control

## WineVac Series

Basically the same as the CT series above, but with a Kitchener’s patented WineVac unit installed in the upper left corner of the fridge.

### What is the WineVac?

WineVac utilizes a known and simple process of oxygen removal to keep the wine in a drinkable state for a longer period.

Many wine drinkers are familiar with the Vacuvin hand pump which replaces the cork with a rubber stopper and removes oxygen from the wine by hand pumping. The WineVac uses the same Vacuvin stopper but has a mechanical pump and pressure switch to do the job automatically.

The mechanical WineVac means that:

- The precise amount of oxygen is removed each time.
- The pumping time and effort is massively reduced.
- The process is repeatable regardless of the wine left in the bottle.
- No limit or extra cost to the amount of bottles that can be pumped.

No gas or other substance is injected into your wine.

WineVac will allow you to drink a bottle of wine up to 10 days after opening and still be enjoyed.

## Peltier Series

The Peltier Wine cabinets use long-life, no vibration Peltier cooling. The thermoelectric Peltier device is a ceramic plate that becomes cold on one side and hot on the other when low voltage electricity is applied. Using a Peltier device means that in the cooling system there are no moving parts.

The only moving part in the Peltier cabinet is a fan which revolves on a vertical spindle, with a heavy duty slow speed long life motor with negligible impact on the cabinet. Only the Kitchener Peltier Cabinet can guarantee no vibration. Manufactured in Australia since 1998 it represents state-of-the-art wine storage technology.

### Features at a glance.

- Removable door (for easy access)
- Right hand opening only.
- Lockable
- Patented automatic humidity control
- Single Temperature zone
- Digital Thermostat (manual in 252 model)

## EuroCave Series

EuroCave wine cabinets are the world's oldest climate controlled specialist wine storage units. They have been made in France since 1976 and have been refined over the years and are now considered the world's leading brand. They are exported around the world and have an unparalleled track record of being the wine cabinet of choice for connoisseurs. When you buy a EuroCave wine cabinet you are buying the comfort of knowing that your wine will be stored in optimum conditions. EuroCave wine cabinets have superior finish, a unique insulation system minimizing temperature fluctuation and bottle stacking system that optimizes stacking for all shapes and sizes of bottles.

### Features.

EuroCave cabinets have a visual alarm should humidity fall below 50% - one of the few such features available in wine cabinets throughout the world, in which the alarm is combined with clay pellets to preserve the right levels of humidity in your cabinets. Thick insulation and permanent ventilation and a carbon filter to extract unwanted odours combine to provide the perfect conditions for your wine. The compressor cooling the cabinet is fitted on anti-vibration mounts to ensure residual vibration is kept to a minimum. EuroCave cabinets also heat as well as cool. The finish of all EuroCave wine cabinets is the best money can buy. Sleek European design and attention to quality are combined with state-of-the-art technology to ensure your wine is well preserved. EuroCave wine cabinets come with a 2 year guarantee.

# Order Form

| Each unit comes with a 12 month guarantee. |   | Dimensions |      |     | Price           | Quantity | Freight |
|--|---|------------|------|-----|-----------------|----------|---------|
| Model                                      | Style   | H          | W    | D   |                 |          |         |
| EuroCaveV283                               | 206 bottle capacity, digital/low humidity alarm, 3X storage shelves/3X single row sliding shelves, heating & cooling, glass door          | 1744       | 654  | 689 | \$4,950         |          | \$100   |
| EuroCaveV059                               | 38 bottle capacity, digital/low humidity alarm, 4X single row sliding shelves, heating & cooling, glass door, freestanding or built in    | 820        | 594  | 552 | \$3,600         |          | \$100   |
| EuroCaveV259                               | 118 bottle capacity, digital/low humidity alarm, 14X single row sliding shelves, heating & cooling, glass door, freestanding or built in  | 1780       | 594  | 552 | \$5,800         |          | \$100   |
| EuroCaveV266                               | 206 bottle capacity, digital readout, 3X storage shelves/1X single row sliding shelves, solid door  | 1744       | 654  | 689 | \$3,400         |          | \$100   |
| Peltier252                                 | 252 bottle capacity, solid door, no digital readout, fixed shelves, white colorbond.  | 1695       | 820  | 680 | \$3,050         |          | \$95    |
| Peltier284                                 | 284 bottle capacity, solid door, digital readout, fixed shelves, aluminium.   | 1860       | 960  | 730 | \$3,400         |          | \$100   |
| Peltier430                                 | T284 bottle capacity, solid door, digital readout, fixed shelves, aluminium.  | 1895       | 1210 | 730 | \$4,950         |          | \$165   |
| Peltier568                                 | The 568 is two Peltier284 cabinets sold at a discount.  |            |      |     | \$6,400         |          | \$165   |
| Peltier860                                 | The 860 is two Peltier430 cabinets sold at a discount.  |            |      |     | \$9,200         |          | \$195   |
| WineVac32                                  | 32 and 96 bottle capacity includes integrated vacuum pump for wine by the glass, glass door, digital readout, single row sliding shelves. | 855        | 595  | 575 | \$1,800         |          | \$75    |
| WineVac96                                  |   | 1650       | 595  | 575 | \$2,450         |          | \$95    |
| WineVac32UB                                | UB models (include venting plate and fan) are for built-in or underbench.   | 860        | 595  | 575 | \$1,975         |          | \$75    |
| WineVac96UB                                |   | 1665       | 595  | 575 | \$2,625         |          | \$95    |
| CT36                                       | 36 bottle capacity, glass door, digital, 4 sliding shelves.   | 855        | 595  | 575 | \$1,150         |          | \$75    |
| CT100                                      | 100 bottle capacity, glass door, digital, 12 single row sliding shelves.  | 1650       | 595  | 575 | \$1,950         |          | \$95    |
| CT126                                      | 126 bottle capacity, glass door, digital, 3X single row sliding shelves, 3 X fixed shelves.   | 1650       | 595  | 575 | \$1,850         |          | \$95    |
| CT142                                      | 142 bottle capacity, glass door, digital, fixed shelves.  | 1650       | 595  | 575 | \$1,750         |          | \$95    |
| CT204                                      | 142 bottle capacity, glass door, digital, fixed shelves.  | 1615       | 725  | 675 | \$1,995         |          | \$95    |
| WineVac Benchtop                           | Stand-alone vacuum wine preservation system.  | 305        | 135  | 360 | \$1,100         |          | \$50    |
|  |   |            |      |     | <b>SubTotal</b> |          |         |
|  |   |            |      |     | <b>Freight</b>  |          |         |
|  |   |            |      |     | <b>Total</b>    |          |         |

Note: Aluminium fronts for WineVac units \$85 extra.
